

Mouse health record for July 2019

Yuchen Cheng

2019/07/31

The mean weight of mice is 19.05g.

The mean age of mice is 19.1months.

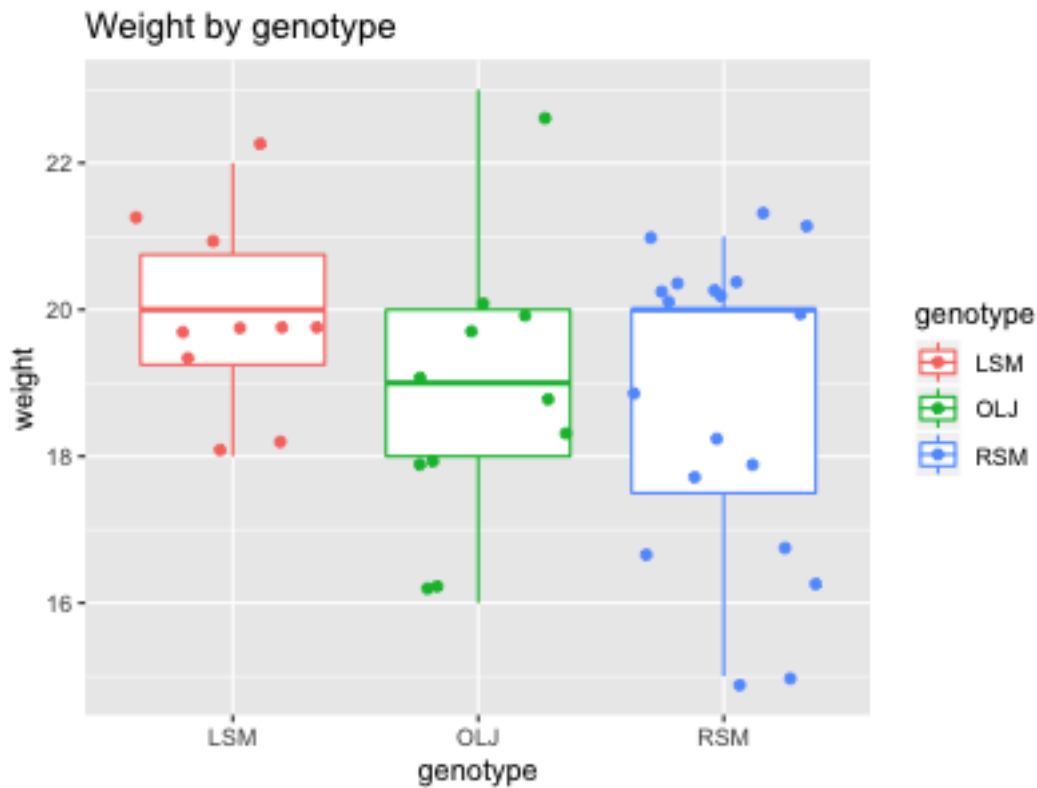

Figure 1: the relation ship between mouse weight and age

Fun with math

there are some (**some text**) kuohao

(**sdef**)

$$\frac{1}{2}$$

$$A = \frac{d^2\pi}{4}$$

$$E = mc^2$$

$$K_d = \frac{k_b}{k_f}$$

$$v = \frac{v_{max}[S]}{K_M+[S]}$$

$$\sigma = var(\frac{1}{2})$$

$$\mu = \frac{1}{n} \sum_{k=1}^n x_k$$
